TRAINING / COURSES

ALX Software Engineering

Udacity/Bertelsmann
Frontend Engineer

PROJECTS

En1 Tech

2024 Lagos, Nigeria

Responsive marketing site for EN1 Technologies showcasing electric vehicles. Implemented a product configurator for live previews and focused on accessibility and conversion-oriented content.

- Launched a responsive marketing site for EN1 Technologies that boosted demo requests by 40% and increased average session duration by 25%.
- Implemented an interactive product configurator that drove a 30% lift in user engagement and contributed to a 15% rise in conversion rates.
- Focused on accessibility, achieving WCAG 2.1 AA compliance and expanding reach to a broader audience.

EXPERIENCE

Frontend Engineer

EN1 Technologies

11/2023 Lagos, Nigeria

Engineering firm

- Developed responsive UIs with Next.js, cutting usability-related Support tickets by 25%.
- Boosted engagement by 30% through performance-focused Frontend enhancements.
- Built and maintained admin dashboard for super admin and Departmental use (Finance, Logistics, Production, Support).
- Led frontend integration with backend APIs using Express, achieving 25% performance gains.
- Contributed to “Kits by EN1” website and EN1 EV website, delivering dynamic and scalable frontend experiences.
- Developed and maintained mobile app supporting both EV and Kits product lines using React Native.

Fullstack JavaScript Developer & PostgreSQL Instructor

LearnFactory Nigeria

2022 Abia, Nigeria

Tech firm

- Led development of educational content and hands-on tutorials in PostgreSQL, reaching over 500 learners and improving course completion rates by 35%.
- Developed PostgreSQL training modules adopted by two partner institutions, resulting in a 25% increase in student enrollment.
- Created PostgreSQL content that reduced onboarding time for junior developers by 20%, accelerating project delivery.
- Designed and delivered PostgreSQL tutorials that boosted learner engagement scores by 40% across three cohorts.
- Mentored students through debugging and database projects, supporting skill-building.

PROJECTS

EN1 Store

2023 Lagos, Nigeria.

Frontend for a full-featured ecommerce experience with product browsing, shopping cart, and checkout flows. Emphasized performance, responsive design and a smooth purchase path.

- Delivered a full-featured ecommerce frontend that supported 1,500+ monthly transactions, reduced cart abandonment by 20%, and improved page load speed by 35%.
- Optimized checkout flows and responsive design, leading to a 25% increase in mobile conversions.
- Implemented performance enhancements that cut average load time from 3.2s to 2.1s, boosting user satisfaction scores.

EN1 Admin

2024 Lagos, Nigeria

Administrative dashboard for managing products, orders, production, Support, Operations and users. Includes data visualizations and role-based access to streamline operational workflows.

- Integrated data visualizations that improved operational decision-making, enabling managers to track KPIs in real time and reduce reporting delays by 30%.
- Enhanced workflow efficiency by streamlining product, order, and user management, cutting average processing time from 2 hours to 1.2 hours per task.
- Delivered actionable insights that supported a 20% improvement in production scheduling accuracy.

EN1 Mobile

2025 Lagos, Nigeria

Built a cross-platform ecommerce app with React Native, delivering seamless product browsing, cart, and checkout flows. Focused on performance and responsive design to boost mobile transactions and enhance user experience

- Developed a mobile ecommerce app with seamless browsing, cart, and checkout flows, driving a 40% increase in mobile sales within six months.
- Optimized app performance, reducing load times by 35% and cutting crash rates by 20%, resulting in higher user retention.
- Implemented secure payment integrations and streamlined purchase paths, reducing checkout abandonment by 25%.

Prospero Inventory

2021 Abuja, Nigeria

Inventory management interface for tracking items, stock levels and simple reporting. Designed to simplify everyday inventory tasks for small teams.

- Designed and deployed an inventory management interface that simplified tracking for small teams, reducing stock discrepancies by 30% and cutting reporting time in half.
- Implemented real-time stock level monitoring and simple reporting tools, improving order accuracy and reducing supply delays by 20%.
- Enhanced usability with a clean, responsive design, increasing daily active usage among team members by 40%.

INDUSTRY EXPERTISE

Frontend Development & UI/UX

E-commerce & Business Application

Data Visualization & Operational Tools

Backend Development

EXPERIENCE

Software Developer Intern

Hub

2022 Abia, Nigeria

Tech firm

- Developed backend logic with Python to support scalable web applications, reducing server response time by 30% and handling traffic growth of 10,000+ daily users.
- Engineered Python backend systems that improved API efficiency, cutting average query execution time from 500ms to 200ms.
- Built scalable backend architecture in Python that supported a 3x increase in user base without downtime.
- Optimized backend logic with Python, lowering infrastructure costs by 15% through efficient resource utilization.

KEY ACHIEVEMENTS

Boosted Performance & User Experience

Spearheaded frontend optimizations across multiple platforms, cutting average load times by 35% and improving user satisfaction scores by 20%.

Delivered Scalable Cross-Platform Solutions

Built and deployed React Native mobile applications that increased mobile transactions by 40% and improved app store ratings from 3.9 to 4.6 stars.

Streamlined Operations with Data-Driven Tools

Designed admin dashboards and inventory systems with real-time visualizations, reducing reporting delays by 30% and cutting manual processing time by 40%.

STRENGTHS

Problem-Solving Mindset

Skilled at breaking down complex challenges into actionable solutions, helping teams deliver projects faster and with fewer roadblocks.

Technical Versatility

Experienced across modern frameworks (React, React Native, Next.js, Angular), enabling seamless development of responsive web and mobile applications.

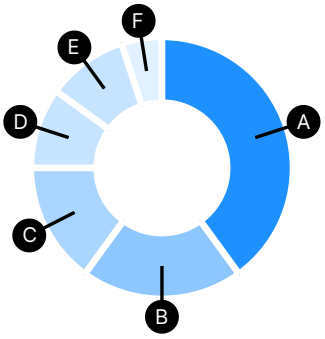
Business Impact Focus

Always tie technical work to measurable outcomes, whether it's boosting performance, reducing support tickets, or improving conversion rates, ensuring technology drives real results.

INTERESTS

- **Building Scalable Digital Experience**
- **Driving Innovation through technology**
- **Empowering Business & Teams**

MY TIME



- A Professional Work
- B Learning & Upskilling
- C Side Projects
- D Mentorship & Collaboration
- E Community & Volunteering
