PROJECTS

En1 Tech

2024 Lagos, Nigeria

Responsive marketing site for EN1 Technologies showcasing electric vehicles. Implemented a product configurator for live previews and focused on accessibility and conversion-oriented content.

- Launched a responsive marketing site for EN1 Technologies that boosted demo requests by 40% and increased average session duration by 25%.
- Implemented an interactive product configurator that drove a 30% lift in user engagement and contributed to a 15% rise in conversion rates.
- Focused on accessibility, achieving WCAG 2.1 AA compliance and expanding reach to a broader audience.

EXPERIENCE

Frontend Engineer

EN1 Technologies

11/2023 Lagos, Nigeria

Engineering firm

- Developed responsive UIs with Next.js, cutting usability-related Support tickets by 25%.
- Boosted engagement by 30% through performance-focused Frontend enhancements.
- Built and maintained admin dashboard for super admin and Departmental use (Finance, Logistics, Production, Support).
- Led frontend integration with backend APIs using Express, achieving 25% performance gains.
- Contributed to "Kits by EN1" website and EN1 EV website, delivering dynamic and scalable frontend experiences.
- Developed and maintained mobile app supporting both EV and Kits product lines using React Native.

Fullstack JavaScript Developer & PostgreSQL Instructor

LearnFactory Nigeria

2022 Abia, Nigeria

Tech firm

- Led development of educational content and hands-on tutorials in PostgreSQL, reaching over 500 learners and improving course completion rates by 35%.
- Developed PostgreSQL training modules adopted by two partner institutions, resulting in a 25% increase in student enrollment.
- Created PostgreSQL content that reduced onboarding time for junior developers by 20%, accelerating project delivery.
- Designed and delivered PostgreSQL tutorials that boosted learner engagement scores by 40% across three cohorts.
- Mentored students through debugging and database projects, supporting skill-building.

PROJECTS

EN1 Store

📅 2023 📍 Lagos, Nigeria.

Frontend for a full-featured ecommerce experience with product browsing, shopping cart, and checkout flows. Emphasized performance, responsive design and a smooth purchase path.

- Delivered a full-featured ecommerce frontend that supported 1,500+ monthly transactions, reduced cart abandonment by 20%, and improved page load speed by 35%.
- Optimized checkout flows and responsive design, leading to a 25% increase in mobile conversions.
- Implemented performance enhancements that cut average load time from 3.2s to 2.1s, boosting user satisfaction scores.

EN1 Admin

📅 2024 📍 Lagos, Nigeria

Administrative dashboard for managing products, orders, production, Support, Operations and users. Includes data visualizations and role-based access to streamline operational workflows.

- Integrated data visualizations that improved operational decision-making, enabling managers to track KPIs in real time and reduce reporting delays by 30%.
- Enhanced workflow efficiency by streamlining product, order, and user management, cutting average processing time from 2 hours to 1.2 hours per task.
- Delivered actionable insights that supported a 20% improvement in production scheduling accuracy.

EN1 Mobile

📅 2025 📍 Lagos, Nigeria

Built a cross-platform ecommerce app with React Native, delivering seamless product browsing, cart, and checkout flows. Focused on performance and responsive design to boost mobile transactions and enhance user experience

- Developed a mobile ecommerce app with seamless browsing, cart, and checkout flows, driving a 40% increase in mobile sales within six months.
- Optimized app performance, reducing load times by 35% and cutting crash rates by 20%, resulting in higher user retention.
- Implemented secure payment integrations and streamlined purchase paths, reducing checkout abandonment by 25%.

Prospero Inventory

📅 2021 📍 Abuja, Nigeria

Inventory management interface for tracking items, stock levels and simple reporting. Designed to simplify everyday inventory tasks for small teams.

- Designed and deployed an inventory management interface that simplified tracking for small teams, reducing stock discrepancies by 30% and cutting reporting time in half.
- Implemented real-time stock level monitoring and simple reporting tools, improving order accuracy and reducing supply delays by 20%.
- Enhanced usability with a clean, responsive design, increasing daily active usage among team members by 40%.

INDUSTRY EXPERTISE

Frontend Development & UI/UX

E-commerce & Business Application

Data Visualization & Operational Tools

Backend Development

EXPERIENCE

Software Developer Intern

Hub

📅 2022 📍 Abia, Nigeria

Tech firm

- Developed backend logic with Python to support scalable web applications, reducing server response time by 30% and handling traffic growth of 10,000+ daily users.
- Engineered Python backend systems that improved API efficiency, cutting average query execution time from 500ms to 200ms.
- Built scalable backend architecture in Python that supported a 3x increase in user base without downtime.
- Optimized backend logic with Python, lowering infrastructure costs by 15% through efficient resource utilization.

KEY ACHIEVEMENTS

✔ Boosted Performance & User Experience

Spearheaded frontend optimizations across multiple platforms, cutting average load times by 35% and improving user satisfaction scores by 20%.

✔ Delivered Scalable Cross-Platform Solutions

Built and deployed React Native mobile applications that increased mobile transactions by 40% and improved app store ratings from 3.9 to 4.6 stars.

✔ Streamlined Operations with Data-Driven Tools

Designed admin dashboards and inventory systems with real-time visualizations, reducing reporting delays by 30% and cutting manual processing time by 40%.

STRENGTHS

✔ Problem-Solving Mindset

Skilled at breaking down complex challenges into actionable solutions, helping teams deliver projects faster and with fewer roadblocks.

✔ Technical Versatility

Experienced across modern frameworks (React, React Native, Next.js, Angular), enabling seamless development of responsive web and mobile applications.

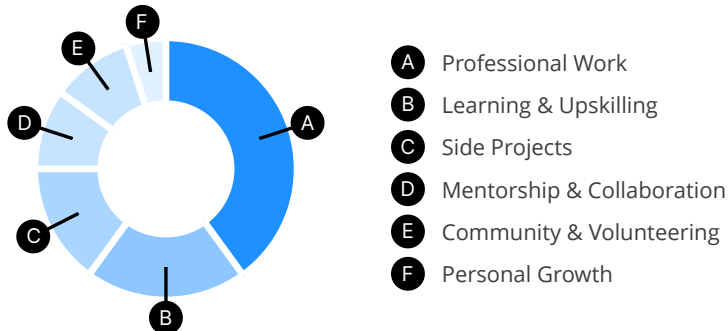

✔ Business Impact Focus

Always tie technical work to measurable outcomes, whether it's boosting performance, reducing support tickets, or improving conversion rates, ensuring technology drives real results.

INTERESTS

- ✓ Building Scalable Digital Experience
- ✓ Driving Innovation through technology
- ✓ Empowering Business & Teams
